Windsor High School is located near Windsor Road, a major arterial road and an industrial area.

This means that the traffic flow before and after school is extremely busy and risk of injury for our students is high.

With no pedestrian crossing for our school, students must travel to school with extreme caution.
Students who catch a bus home from school are required to wait **inside** the school gates.

This is to create more space on the footpath for pedestrians.

Teachers on duty will allow students to exit the gate when their bus arrives.

**This includes senior students.**

Senior students will still have the privilege of entering the bus first.
On the footpath

- Students must walk sensibly on the footpath at all times.
- Don’t step onto the curb until you are ready to cross the road.
- Cross the road away from the bend in the road.
Due to the bend in Mulgrave Road, students should walk to the lights and cross at Windsor Road or along a straight stretch of road with clear views of traffic approaching.

If you get picked up by a car, please walk away from the bus stop and the bend in the road to cross safely.
It’s against the law to reverse or front park a car on the side of a road. If parking inspectors come out, you can be issued a parking ticket.
Drivers - please park parallel!

Trucks and cars coming around this the bend have more chance of crashing into cars that are reversing into or out of a park.
Staff car park

- For staff only unless you have a Principals permission letter shown on your dashboard.
- No parking for students, parents or carers
- No pedestrian access
